MINISTER ROSEN SEES ROOSEVELT

Russian Ambassador Calls at
Sagamore Hill Today.

After Exchange of Speeches the Bar-
on Takes Luncheon with
Mr. Roosevelt.

USES THE GOVERNMENT YACHT

Oyster Bay, July 13.—President
Roosevelt received the new ambas-
sador from Russia, Baron Roman
Romanovitch Rosen at Sagamore
Hill this afternoon. The naval
yacht Sylph brought the ambassador
from New York. After an exchange
of felicitous speeches, which consti-
tuted the ceremony, Rosen took
luncheon with the president and
Mrs. Roosevelt.

YOUTHFUL HOUSEBREAKER.

Twelve Year Old Lad, Charlie Glenn,
Arrested Today.

Charlie Glenn, age 12 years, the
son of Mr. Tom Glenn, the I. C. tel-
egraph operator, was arrested this
afternoon at 1 o'clock at Ninth and
Washington streets, by Officers Pot-
ter and Goureaux on the charge of
housebreaking.

Last night about 10 o'clock some
one broke into the rear of the Char-
lie Denker residence, on Clark street
near Ninth, and stole a sack of smok-
ing tobacco and a diamond ring.
The ring was large, the setting being
composed of several small diamonds
and opals and of considerable val-
ue. This morning the Glenn boy ap-
peared at the I. Cohen pawnbroker
establishment and attempted to sell
the ring but the proprietor refused
to buy it, advising the youngster to
take the ring to the city hall and
surrender it.

Cohen then reported the matter
to the police and the boy was soon
under arrest. The ring was found in
his possession, and he was warrant-
ed at the city hall and locked up in
jail to await the results of an exam-
ining trial in police court.

The boy ran away from home some
time ago and his father could not lo-
cate him anywhere. He turned up
shortly afterward but his father found
it a hard matter to keep him at
home, it is said. He would say noth-
ing about the ring or charges against
him.

EXTRA SUNDAY THIS YEAR.

Will Be Fifty-three for the First
Time in 110 Years.

Will Reese, of this city, has
drawn the attention of The Post to
the fact that there will be fifty-three
Sundays in this year.

Mr. Reese says also that this is
the first year to contain that many
Sundays since 110 years ago. Not
knowing anyone who has lived that
long, The Post takes Mr. Reese's
word for it.

The reason why this year has an
extra Sunday is that it came in on
Sunday and goes out on Sunday.—

HEAT IN NEW YORK.

It Continues Today Despite Hard
Showers.

New York July 13.—Hard show-
ers this morning failed to check the
four day heat wave which settled
over the city bringing deaths and
prostrations by scores. Three deaths
were reported before 10 o'clock,
while hospitals are crowded with
prostrations.

NEW STEAMER ARRIVES.

City of Saltillo Will Be Furnished
with St. Louis Goods.

St. Louis, July 13.—The new
steamer City of Saltillo of the St.
Louis and Tennessee river line, ar-
rived at the wharf last evening from
Jeffersonville, Ind. She will receive
her furnishings here, her carpets,
mattresses, bedding and other outfit-
tings and utensils having been pur-
chased from local merchants. Capt.
John E. Macgill, manager of the
line, hopes to have her ready to
leave for the Tennessee river on
Saturday evening.

The new boat is the largest of the
line, being 200 feet long, 37 foot
beam and 7 foot depth of hold. She
has 58 staterooms all finely finish-
ed, and they and all other rooms and
compartments, including the hold,
are supplied with electric lights.
She is also provided with steam-
steering gear. The boat will carry
1,000 tons of freight. The furnis-
hings will be installed under the su-
pervision of William Maxwell, the
veteran steward, who will have
charge of her cabin. The boat will be
in charge of Capt. H. N. Crane.

M. E. CONFERENCE

THE SESSION TODAY WAS VERY
INTERESTING ONE.

Committees Make Reports and Sev-
eral Good Addresses Are Made
by Ministers.

The meeting of the conference at
the Third street Methodist church
was a most interesting one this
morning.

The character and work of the
preachers in this district were exam-
ined and the committee on Sunday
schools and education made a report
and drew up resolutions of thanks to
the public school teachers of the
country for services in the school-
room. Rev. T. J. Newell made a
twenty-minute speech on education,
followed by a sermon by R. W. New-
some, of Clinton, Ky., on missions.

This afternoon the committee on
the observance of the Sabbath will
make its report; this to be followed
by the election by the laymen of the
ministers who will attend the annu-
al conference at Mayfield in the com-
ing November.

JUDGE COCHRAN

Won't Encourage Contempt Pro-
ceedings.

Cincinnati, July 13.—Judge Coch-
ran, of the United States court, after
a telephone talk with District At-
torney Tinsley at Covington, decided
that the charges of contempt of
court against Mayor Helmhold, of
Newport, Ky., in connection with the
controversy over placing Caleb Pow-
ers in the Newport jail should be
dropped. The charge of resisting a
United States officer will be pushed
against the Newport officials.

JAPS ARE QUIET.

Rank and File of Army Anxious For
Peace.

Sipinghai, Manchuria, July 13.—
Quiet continues along the front but
the Japanese are still moving in Ko-
rea. Information from Japanese
lines indicates the rank and file are
exceedingly anxious for peace. To
counteract this feeling, Field Mar-
shal Oyama continually issues glow-
ing appeals to patriotism of his ar-
mies.

ANOTHER RUSSIAN

Is Marked By Assassin for Death
in the Near Future.

St. Petersburg, July 13.—General
Trepoff, assistant minister of the in-
terior, was warned by terrorists he
say death may come when least ex-
pected in his private apartments.

SPECIAL JURY

Called at Mayfield to Investigate
Death of Unknown Man.

Mayfield, Ky., July 13.—In re-
sponse to a big petition, Circuit
Judge Bugg has called a special ses-
sion of the grand jury to investigate
the death of the unknown man found
dead east of here last November.

NEGRO WITH A GUN KILLS ALL ON SHIP

One of Most Shocking Crimes in
Annals of Crime.

With a Winchester the Negro
Shoots Ship's Crew and Wom-
en and Children.

HE IS FINALLY CAPTURED

New Orleans, La., July 13.—De-
tails have just been received here of
one of the most shocking tragedies
in all annals of crime. The Island of
Utilia off the Honduran coast was
the scene of the tragedy and twelve
lives were sacrificed, the motive be-
ing robbery.

The captain of the schooner Olym-
pia had started on a cattle buying
expedition. Her crew and passengers
totalled thirteen, including two wo-
men, two children. The ship left Utilia
the night of June 30. About mid-
night everybody was aroused by a
shot. They rushed on deck and Robert
McGill, a negro armed with a
Winchester, shot them down one af-
ter another. After he had killed all
but one man, McGill ordered him to
scuttle the ship, and when he re-
appeared on deck and reported Mc-
Gill shot him dead. The negro then
put the two women, Miss Eliza
Morgan and her sister, Mrs. Walter
Rose, in the dory, with Mrs. Rose's
six weeks' old infant, on the boat,
steering for the main land. He chan-
ged his mind about allowing the
women to live, and killed Mrs. Rose
and her infant. Then he began shoot-
ing at Miss Morgan, and wounded
her in the arm. He fired at her in-
effectually, but his ammunition evi-
dently gave out, for he promised her
immunity from harm if she would
come back to the dory. She started
back and when within oar's length
he struck her over the head with an
oar stunning her. Believing she was
dead, he rowed away toward the
mainland. Miss Morgan swam back
to the Island and after hiding for
two days in bushes was rescued.
When she told her story a search
was made and McGill caught on the
road to Cebila. An attempt was made
to lynch him but he was protected
and taken back to the Island. The
Honduran laws forbid capital pun-
ishment, but it is believed the peo-
ple will take the case into their own
hands and torture him to death.

ONLY ONE CHARGE.

Now Stands Against Newport's May-
or and Police.

Cincinnati, O., July 13.—The on-
ly new developments in the Powers
case today was the withdrawal of
the affidavits charging Mayor Aug-
ust Helmhold and Policemen Flynn
and Ratican with contempt. The at-
torneys for both sides got together
this morning early and agreed to
withdraw them. As there was no
objection on the part of the United
States attorney J. H. Tinsley, the
affidavit for the arrest of Mayor
Helmhold and the policemen was
withdrawn.

The affidavit charging them with
interfering with a United States
prisoner, namely, Caleb Powers, will
be called Thursday morning before
United States Commissioner Leon-
ard.

Hundreds of people from the coun-
try still continue to pour into New-
port expecting to see another riot,
but peace reigns, and it is believed
no further trouble will be experi-
enced for a few hours at least.

\$250,000 DAMAGES.

Suit Against the American Tobacco
Company at Clarksville.

Clarksville, Tenn., July 13.—Suit
was today entered by a committee
from the executive committee of the
Dark Tobacco Growers' Association
against the American Tobacco com-
pany and buyers who are alleged to
have boycotted the association for
\$250,000 damages. The suit is
brought on behalf of seven thousand
planters who are members of the
association, and is based on an al-
leged action of the defendants in try-
ing to break up and destroy the asso-
ciation, in restraining competition and
also for the alleged boycotting of the
association's tobacco in the Clark-
sville market in Bremen and other
foreign markets.

PLOT TO KILL THE RUSSIAN EMPEROR

The Russian Police Discover a
Plot to Blow up Castle.

Two Hundred and Fifty Pounds of
Dynamite Discovered in the
Cellar.

CZAR INTIMIDATED BY PLOT

London, July 13.—The Daily Tel-
egraph publishes a dispatch from its
Vienna correspondent stating that
private letters from St. Petersburg
state the police discovered a plot to
blow up the castle of Hlinskoje, near
Moscow, where the czar and imper-
ial family planned to stop during
the coming visit of the emperor to
that city and reported two hundred
and fifty pounds of dynamite were
found in the cellar. The czar, it is
reported, has given up the idea of
staying at Hlinskoje since the discov-
ery of the plot.

SENATOR DEPEW

Denies He Had Any Undue Relations
With the Equitable.

Paris, July 13.—Senator Depew,
says that the reports of his "land
deal" with the Equitable are greatly
exaggerated. "The reports," said
the senator "refer to the Depew Im-
provement company, which was given
my name without my being con-
sulted. The head of the company
was Dr. Seward Webb, through
whom I became a member after the
enterprise had become flourishing,
with a settlement near Buffalo in
connection with five trunk lines.

"Much of the stock was held
abroad. Thus when more funds were
necessary it was impossible to se-
cure the co-operation of the widely
scattered foreign stockholders,
though several members of the com-
pany, myself for one, were willing
to agree to any scheme to restore the
enterprise to a profitable basis.

"If the Equitable will join as an
individual like the other creditors in
taking the company out of the hands
of the receiver and reorganizing it
there will be no loss to the Equitable.
The loan was made in ordinary
course on application by the man-
ager of the improvement company. It
was granted after examination by the
officers of the Equitable charged with
that duty. I had absolutely nothing
to do with it." Depew says the re-
ports that he is to be ousted from the
Equitable are ridiculous.

"I have never heard a word of
this matter directly or indirectly
from the Equitable," he went on.
"Since I placed my resignation in the
hands of Paul Morton just before I
came from abroad. I resigned be-
cause I am nearly 73. I have sur-
rendered other retainers and I had
decided to surrender this before my
next birthday. I am reducing my
business obligations, which have so
accumulated as to leave me no leis-
ure for that repose which belongs to
a man of 72, no matter how vigor-
ous he may be."

200 ARMED MEN

Are Searching for a Kansas Temper-
ance Crank.

Iola, July 13.—Two hundred ar-
med men under the direction of Sher-
iff Richardson started a search of the
country roads about Iola today for
C. L. Melvin, the temperance fanatic,
who has been in hiding since the
destruction of three Iola saloons by
dynamite, and who is believed to
still have in his possession a great
quantity of dynamite, with which he
has threatened to cause further de-
struction.

Many citizens have joined in the
chase, which soon developed into an
excited manhunt.

RUSSIAN SOLDIERS.

Prove to Be Murderers, As Well As
Robbers.

Lodz, Poland, July 13.—The au-
thorities have discovered that during
the recent trouble here, which re-
sulted in so much bloodshed, when
the troops fired on the people, Cos-
sacks systematically plundered civi-
lians even murdered their victims to
conceal their misdeeds. Large quan-
tity money, jewelry, etc., has been
found in Cossacks' quarters.

FUNSTON'S FATHER ARRESTED.

Arrest Follows Dynamiting of Town
By Saloon Wreckers.

Iola, Kan., July 13.—E. H. Fun-
ston, ex-congressman and father of
Brig.-Gen. Fred Funston, was ar-
rested here tonight charged with inflam-
matory utterances. Mr. Funston, in
talking of the explosion which blew
up three saloons here this week, said
the occurrence would have been
avoided if the officers of the law had
done their duty in enforcing the laws.

Funston resisted the policeman
who attempted to arrest him and a
fight resulted, in which the police-
man struck Funston, strapped him to
his buggy and took him to jail. Lat-
er Funston was released and he
swore out a warrant for the police-
man. The policeman charged that
Funston came to town with a revolver
and a Winchester, and that he
bought some cartridges and had
them in his buggy when arrested.
Funston is a radical law-enforce-
ment man. His hearing was set for
next Saturday.

WALLACE'S JOB

WILL BE EMPLOYED BY GEORGE
WESTINGHOUSE.

Plan to Build Electric Roads by Side
of Steam Railways.

New York, July 13.—It has been
learned upon the highest authority
that Engineer John F. Wallace was
lured away from the Panama canal
commission by George Westinghouse,
of the Westinghouse Electric com-
pany.

Westinghouse, is known, has a
scheme to build electric railroads to
parallel steam railroads wherever
there is an apparent chance of profit-
able competition.

The belief is current that the main
object of Westinghouse and those
who are to be associated with him is
to compel the railroads to buy the
electric roads in order that there
may be no rate slashing.

It is suspected that in some in-
stances the railroads themselves will
be parties to the scheme with a view
to preventing the construction of
electric roads by unfriendly interests.

Wallace is to be the head of the
enterprise, and, in addition to a sal-
ary of \$65,000 per annum, is prom-
ised opportunity to obtain stockhold-
ings and profits out of the deals con-
templated.

It is said Wallace believed when
he left the Isthmus of Panama that
the president and Secretary Taft
would increase his salary to the fig-
ure offered by Westinghouse, and
that he would be permitted to direct
canal operations from this country.

Secretary Taft had received some
information of the general scheme
and was prepared for Wallace when
he arrived.

ODELL ON WARPATH.

Declares That Senator Depew Must
Resign From Equitable.

New York, July 13.—As an out-
growth of the Equitable scandal,
Chairman Odell republican leader,
announces legislation must be en-
acted by the present general assembly
abolishing "Wall street control of
the great companies in which the
people's money is deposited."

Odell's scolding knife is out for
Chauncey M. Depew, and he says the
Senator must cut connection with
the Equitable board of directors.

RUSSELL SAGE

Young and Sprightly at Youthful
Age of 89.

New York, July 13.—Russell Sage
yesterday emerged from his retire-
ment and appeared in the financial
district for the first time since last
February. Although he will be 89
years old in August, he walked like
a man of fifty. His health is greatly
improved.

THE SULTAN

Refuses Suggestions of the Pow-
ers.

Constantinople, July 13.—The
porte has given a reply to the sug-
gestions of the powers for addition-
al reforms in Macedonia whereby it
was proposed to strengthen the in-
ternational control of Gendarmerie
and has declined to agree to propos-
als.

CZAR SELECTS A NEW PEACE ENVOY

M. Muravieff Will be Replaced
by Minister Witte.

Change Makes for Peace as Muravieff
Would Jeopardize Peace
Probabilities.

IT WILL PLEASE THE JAPS

St. Petersburg, July 13.—M. Mu-
ravieff has resigned his position as
peace plenipotentiary. It may be re-
garded as practically certain that he
will be replaced by M. Witte, presi-
dent of the committee of ministers,
who all along has been considered
the Russian statesman preeminently
qualified to undertake the difficult
task of negotiating peace with Ja-
pan.

Though the emperor on two pre-
vious occasions has flatly declined
to accept M. Witte, he has now indi-
cated his readiness to make the ap-
pointment. Witte's selection un-
doubtedly will be hailed as a practi-
cal assurance of peace.

While it would be a mistake to
denominate him as a "peace at any
price" man, Witte earnestly believes,
the struggle should be ended and
should be succeeded by an under-
standing between Russia and Japan
which would insure peace in the Far
East for a half century. Indeed, he
is personally believed to be in favor
of a Russo-Japanese alliance.

The conduct of negotiations by
Witte, it is felt by the peace party
here, will inspire instant confidence
in Japan. Muravieff's retirement is
ostensibly owing to ill health, is in
reality due to the fact that the en-
peror became convinced that negoti-
ations might be jeopardized if he
went to Washington. The change in
the chief of plenipotentiaries does
not involve any postponement of the
date of sailing of the peace mission
for Washington.

News Confirmed.

Washington, July 13.—Ambassa-
dor Meyer has reported officially to
the state department that M. Witte
has been appointed chief Russian
peace plenipotentiary in place of
Count Muravieff resigned.

St. Petersburg Advice.

St. Petersburg, July 13.—The of-
ficial designation of M. Witte to
head the Russian peace mission was
forwarded to Washington this morn-
ing. Witte will sail from Cherbourg
France next Wednesday. The ap-
pointment clothes Witte with ple-
nary powers.

Czar Wants Peace.

St. Petersburg, July 13.—The se-
lection of M. Witte as Russia's rank-
ing peace plenipotentiary, in place
of Muravieff resigned, is regarded
here as the best evidence yet given
that the czar is really ready for peace.
Witte's views favoring immediate
cessation of hostilities are well
known. In Liberal circles, there is
the greatest rejoicing over the selec-
tion of the man who is virtually the
leader of the peace party.

POOR FELLOWS.

Officials of Equitable Have Their
Salaries Cut.

New York, July 13.—Sweeping re-
ductions in the salaries of various
officials and employees of the Equi-
table Society were announced today by
Chairman Morton.

The decrease will amount to 20
per cent on all salaries over \$15,000
per annum; 15 per cent from all
salaries between \$9,000 and \$15,000,
both inclusive, and 10 per cent
decrease from all salaries above \$2,
500 and below \$9,000 per year.
These changes become operative on
August 1, next, and effect a saving
of from \$150,000 to \$200,000 a year.

AGRICULTURE DEPARTMENT

Will Have a House Cleaning in
Search For Graft.

Washington, July 13.—That there
will be a searching investigation of
the entire agricultural department
similar to that of the postoffice de-
partment, which resulted in unearth-
ing a wholesale system of graft and
corruption seems inevitable. It is
believed Secretary Wilson has decid-
ed upon such course.

Speaking about pitching, well, just take a peep at the summaries of yesterday's double header at Wallace park and see what the Raylets have got to learn about stick work when pitted against the "real thing"—Wiley Piatt.

To be brief and to save the reader from unnecessary labor and time, Piatt pitched the double header yesterday. This is sufficient. While the big twirler did phenomenal work, the other members of the team came in for their share of the praise, and the error column will show what the Indians did in the way of handling what few balls did come in contact with Piatt's delivery.

Piatt allowed only four hits each game and the Indians, always full of snap and ginger, eclipsed the Raylets to such an extent that today Johnnie Ray is not smiling.

In the first game the Indians took the game with ease, "Shady" Akers being a "pudding" to the Braves. He was easily found and while he deserves mention for his energy, was not a worthy match for the Big Twirler, and had to stand a "swamp-ling."

The Indians hit and ran bases like fiends and every opportunity to show the Raylets up was taken advantage of. Gilligan, when the Indians had scores to let, stole home in the second game just to show the Raylets that he was fully awake and after this the streak took a slump and the fans complained of "dull times."

In the first game the Indians scored in the third, fourth and eighth innings, making one in the third, two in the fourth and three in the eighth.

It was done through hitting and fast base running. Theodore Decker, the Paducah amateur who has proven himself in the professional class, being a feature of the game with his star fielding and base running.

In the second game the Indians got tired of scoring so frequently and cut the game a little. Scores were tallied as follows: One in the first, when Gilligan stole home, and three in the sixth. While no runs in this game were earned, it was clearly apparent that the Braves had the game cinched, the Raylets being unable to connect with the Piatt delivery.

"The smile that won't come off" didn't prove to be the one worn by Johnnie Ray two days ago.

Decker played star ball yesterday. He was a little nervous with the stick but his fielding was sensational. Decker will do for the Paducah fans.

Piatt pitched easy ball yesterday, not exerting himself at all from ordinary observation. Piatt uses that noodle of his as well as his wing.

Frakes or South today will do the twirling for the Indians.

Lemon, catcher for the Kolbits, sustained a broken finger yesterday and will be out of the game some time. Now the ill luck which has been with the Indians is striking the Kolbits.

Wiley Piatt, in stopping a hot liner yesterday, injured his right thumb. The member is swollen this morning but will not disable him.

Duggan and Forney will be the battery for Vincennes today.

Cairo has traded Hippert to Vincennes and he will play second base. He was given over for Lemon, catcher, who broke a finger yesterday.

Eddie Braham and "Dutch" Dicke left today for Princeton where they will make the battery for a team recently organized there.

"Count" Bonno says that he wrote the local management wanting to sign here but his letter was not secured until the team reached home off the circuit, and in the meantime he had signed with Vincennes.

Bonno says he likes Paducah and would like to play here again, but can not get away. He says that Cairo offered two men in exchange for him but that he would not under any consideration play in Cairo.

Bonno has met with bad luck since he joined the Kolbits but says it was not his fault always that he lost. Bonno says that he is pitching just as good ball as last season and will pitch it here, too. Lloyd says that every time Bonno goes in, Piatt will oppose him, and there will be plenty of fun for the fans when this happens.

Tomorrow is ladies' day.

IN AN OLD SAFE.

Two Thousand Dollars, a Gold Watch and Half a Gallon of Whiskey.

Murray, Ky., July 13.—Mr. W. F. Owsley, Jr., son of the late Judge W. F. Owsley, of Burksville, this week opened an old iron safe belonging to his father, and which was found to contain \$2,000 in gold, a costly gold watch and half a gallon of whiskey.

The old safe had formerly been used by its owner in his bank during the war, and had since stood in the vault of the old building, unopened on account of the key being lost. Those who are in a position to know anything about the matter, say it has been many years since the safe has been opened and probably not since the close of the war.

BELLE MEADE FARM

Famous Country Place to Be Sold.

Nashville, July 13.—The sale of Belle Meade under orders of the court was asked in a petition filed today at noon by Mr. Goodloe Lindsley, trustee, in the chancery court. The bill sets out reasons in detail why, in the opinion of complainant, the property cannot be partitioned. It is well known that Mr. Lindsley, trustee, owns a one-third interest in the estate. The other two-thirds is owned by Mrs. Selene Jackson Elliston and Mr. Nat Baxter, Jr., or by Mr. Baxter alone. This the court is asked to ascertain. As a minority holder Mr. Lindsley, it seems, has received no rent or compensation.

Louisville Tobacco Prices.

Louisville, July 12.—The Louisville Warehouse offered 28 hogsheads today, 18 Burley and 10 dark. Prices on the Burley ranged from \$4.25 to \$11 and from \$3.50 to \$7.20 on the dark. There were six rejections, and the market was unchanged. Eighty-two hogsheads were offered at the People's Warehouse, 77 Burley and 5 dark. The dark brought from \$4.15 to \$6.50 and the Burley from \$5.60 to \$15. Ten hogsheads were rejected. The market was fairly satisfactory. The United Dark Warehouse offered 48 hogsheads of dark tobacco. Prices on lugs ranged from \$3.25 to \$5.70 and on leaf from \$5 to \$9.10. Only four hogsheads were rejected and the market was firm and fully as strong as yesterday.

FIRE ALARMS

Will Be Fully Investigated by All Concerned.

Fire Chief James Wood and Manager J. D. Elmore, of the Western Union Telegraph Co., yesterday afternoon held a conference relative to false alarms which have been turned in from the telegraph company's private system from mills and manufacturing concerns.

These alarms had caused many unnecessary runs, but the telegraph manager claims the alarms came to the office all right and that the defect was with the mills and factories. In several instances alarms are thought to have been turned in by mischievous boys, and Manager Elmore will investigate and prosecute all persons found guilty. There is an ordinance in effect imposing a fine for such conduct, and Chief Wood and Manager Elmore will prosecute to the fullest extent of the law in all cases.

136 DOG LICENSES.

Many Owners Pay Tax Into the City Treasury.

License Inspector Ed. Rivers, who is assisting Auditor Alex Kirkland in attending to the office of Clerk Henry Bailey during the latter's absence, stated this morning that dog owners were coming in rather lively paying license.

There were 136 license recorded this morning but dog owners will be coming in faster when the police make a report to Inspector Rivers. Every policeman has been instructed to secure the names of dog owners not having a license, and when the list is made out and placed in the hands of Inspector Rivers, there will be a picking up of business in police court. Inspector Rivers intends to warrant and prosecute every dog owner guilty of failing to secure a license and he means business, too.

ONLY FIVE BLOCKS MAY BE TORN UP

Contractors Not Allowed to Dig up Ten Blocks on Third.

The City Will Try Slag For Street Repairs—Contractor Terrell Given 5 Days to Repair.

BOARD OF WORKS PROCEEDINGS

The board of public works met in regular session yesterday afternoon and acted on several important matters.

Thomas Bridges Sons, the contractors rebuilding South Third street, wanted permission to tear up ten blocks of street for grading at one time. There had been a great deal of complaint from residents and property owners because the contractors were permitted to tear up five blocks and the board ordered that not more than five blocks be torn up at one time, and that the contractors must pave these five already torn up before they can proceed further.

Street Inspector Alonzo Elliott was ordered to take his force of workmen and roller to streets needing rolling and repairing. The men have been working on the Fourth-street fill where gravel taken off Third street is being used in filling in the hollow.

Mr. W. F. Paxton, who has bought the slag at the Paducah Iron Furnace plant, offered to sell it to the city for 30 cents a yard to be used for street repairing purposes. The board agreed to buy enough to repair one street and if it proved satisfactory to buy more.

The signing of the street contracts with the Southern Bitulithic Co. was not made on account of the failure of President Ingram, of the company, to arrive. He is expected today. The board will sign for the city and Mr. Ingram for the company.

The sewer work on Jefferson street near Fountain avenue, was reported progressing nicely.

Estimates for Contractor Harry Baldwin for concrete sidewalks and curbing on Broadway from Fifth to Ninth street were delivered to him.

A street light was ordered at Fifth and Jefferson streets.

The board ordered Contractor E. C. Terrell to repair brick streets built by him two years ago and in event he does not do so within five days, the city will repair them at Mr. Terrell's expense. The streets in many places are in bad repair.

The matter of investigating the ownership of a bridge on Caldwell avenue near the L. C. depot was referred to Mr. John Rinkhoff. The bridge needs repairs and there is a question as to whether the city or private individuals own the bridge.

City Engineer L. A. Washington was ordered to furnish the estimate cost of a concrete culvert on Caldwell avenue near the L. C. depot to replace a badly-repaired bridge. The street car company and L. C. road have agreed to stand part of the expense.

Father of Woman Says She Left in May.

J. N. Denny, of near Cunningham, Carlisle county, Ky., was in the city yesterday afternoon to enlist the services of Detectives Moore and Baker to assist him in locating his daughter, Mrs. Jeff Briney, who he says, eloped with an unmarried man named Tom Haws, residing on an adjoining farm. The elopement is alleged to have occurred in May, the woman leaving her family at Cunningham.

The father traced the couple to Union City, Tenn., but lost trace and came to Paducah to secure the services of the detectives. The authorities have already begun work on the case and hope to locate the two. If found the charge of adultery will be lodged against them.

The detectives located T. N. Beard's wife in Missouri after she had eloped with Tom Frizzell and the two are in jail in Missouri now.

DULL TIMES IN THE TIE BUSINESS

Recent Heavy Rains Interfere With the Hauling.

A 36,000 Horse Power Lock and Dam Plant to Be Installed at Hale Bar.

WORK ON "WAVE ROCK" DIKE

The tie men complain of dull times in the tie business because of the recent heavy rains.

Mr. J. M. Hogan, of the Standard Tie Co., stated this morning that the rain interfered with the hauling of ties to the banks of the rivers, and the boats, what few were running, are experiencing dull times. The ties have nearly all been cleared from the river banks and until hauling picks up again there will be "little doing."

The tie companies are not experiencing any more trouble with shortage in deck labor except the Ayer & Lord Co., which runs several boats and works many tie carriers. The Standard Tie Co. however, is experiencing little trouble from this source at present.

Reports from Brookport tie men are that rain has interfered with their business, too, and the traffic is quiet.

The financial arrangements of the Chattanooga-Tennessee River Power company, which is to build a 36,000-horse-power lock and dam plant at Hale's Bar, in the Tennessee river, have been completed. J. C. Guild, one of the promoters of the big enterprise, has just returned to Chattanooga from New York, where \$3,000,000 was secured with which to begin the work on the big plant.

The promoters have already purchased land at Hale's Bar amounting to over \$5,000.

The plans for the big lock and dam which are to be built under the supervision of the United States engineers, have almost been completed.

There is nothing left to do now but to begin the erection of the plant, and Dr. Guild has given it out that bids will be submitted for the plant at once and the work will begin in 60 days. The largest single item in the whole work will be the cost of erection of the dam which will be about \$1,180,000. The gates for the lock, which will be on the south side of the river, will cost \$150,000.

Granville W. Shaw, of the Louisville office of United States Engineers, will begin work with a small force of men Thursday on the "Wave Rock" dike, which was badly damaged by ice during the past winter. It will require about three weeks to complete the repairs.

The dike is located near the Indiana chute, at a point which was one of the most dangerous to navigation on the Ohio river before the government built the dikes to alter the current. Mr. Shaw is there today making an examination with a view to ascertaining what materials and how many men will be necessary for the work.

"Wave Rock" is on the Kentucky shore, and formerly projected far into the river. In passing the curve it was necessary for boats to turn completely around on account of the singular nature of the current. The rock was graded by the government, and boats now pass over it. Dikes on both sides of the river were necessary to prevent an eddy.

CONSISTENT WEATHER.

Mean Temperature Varies a Little Each Year.

"The consistency of the weather," remarked an observer yesterday, "is a rather remarkable thing when you come to think about it. Year after year the mean temperature, with only a few degrees variation, turns out the same, and the different months assume the same character right

along. Of course, there is variation in some things, but as in the case of the rainfall, they are due mostly to local conditions. Where there are general facts to be averaged up, it is usually found that nature has been fairly faithful and regular in her work. It might almost be said that like woman, "she is consistent in her inconsistency."

Daily Thought.

A man should look stoutly into this world, in faith, that if he does this work thoroughly here, some good to others or himself, with which, however, he is not at present concerned, will come of it hereafter.—Ruskin.

SANITARY CONDITIONS.

With all due respects to preceding health officers, the present board of health is about the best Paducah has had. It has taken hold of the work with an earnestness and determination that should make far better sanitary conditions, and they should receive all the assistance from the local legislative and police bodies needed.

President Pendley, of the board, however, complains that they are hampered in their work; that the sanitary conditions are far from what they might and should be; that dry wells are permitted to be used in parts of the city and other unsanitary conditions permitted to exist that should be remedied.

He does more than complain, however. He says he is going after the different nuisances, and they must be abated.

As every one knows, after excessive rains such as we have had the past few months the probabilities of epidemic exist, and it behooves every one to be careful. The gutters should be looked to, and all garbage piles and other promoters of disease removed.

Let the good work of the board of health go on. Let every one join in, clean up their premises and better the present conditions. In Denver, a few days ago, the mayor announced that on a certain day, to be called cleaning-up day, every one would be expected to clean up their yards and alleys, and the scheme worked excellently.

Such a thing might be done in Paducah with a benefit to all.

THE STREET IMPROVEMENTS.

The board of public works has refused to give the contractors doing the street improvement work on Third street permission to tear up more than five blocks at a time. This is right. Heretofore contractors have been allowed to tear up the streets under construction for the full length of the street regardless of the inconvenience it has caused the public and in face of public protests, and therefore the decision of the board will be good news. It looks as if the Third street work is progressing slowly. The work is to be completed by September 10th, and from present indications it will have to be pushed with greater energy than now

displayed to do it.

The report of the state board of equalization fixing the valuation of taxable property, upon which the taxes for the current year will be collected, gives a total of \$644,489,090, the total amount of taxes assessed against which be \$3,222,445.45. As compared with last year there is an increase in the value of taxable property of \$13,340,234 and an increase in the income to be derived by the state of \$66,761.22. The greatest increase is in the value of farm lands, which amounts to \$10,447,177, the average equalized value per acre being \$11.07. The largest amount of revenue is derived from Jefferson county, which includes Louisville, the total amount of taxes to be collected therefrom being \$679,141.54, a little more than one-fifth of the total revenue. Fayette county comes next with \$158,387.22. Kenton county will pay a little in excess of \$150,000 and Campbell something more than \$100,000, none of the remaining counties reaching that figure. The report indicates a steady growth of prosperity in the increased value of all kinds of property.

The Equitable Life officers must now lead the simple life. Chairman Morton has cut a wide swath in their salaries.

And Senator Depew had his thumb in the Equitable pie, too. Well! Well!

The weather man does not treat us fair. It rains every day.

For we know when we have had enough.

And weep no more, my lady.

Let in a little sunshine.

ELKS IN DENVER.

Next Convention Goes to the Colorado Capital.

Buffalo, N. Y., July 13.—The twentieth annual reunion of the Benevolent and Protective Order of Elks will be held in Denver in 1906. One ballot decided that at the Grand Lodge meeting today. Denver received twice as many votes as Dallas, which made a strong fight, led by United States Attorney William H. Atwell. Atlantic City had few supporters. It is estimated that 50,000 Elks marched over the wet streets in the annual parade today.

The rain had ceased and the sun was shining when the procession started. The marchers were garbed in uniforms of startling colors and unique designs, and with gorgeously decorated floats and trophies of surprising and amusing character, combined to make the parade the most picturesque ever held in the history of the city.

All stores and business houses were closed during the parade and newspapers suspended publication of one edition to allow employees to view the pageant. The local lodge led the way, followed by New York Lodge, No. 1, the mother of the order, headed by their Grand Exalted Ruler, Wm. T. Phillips.

They carried a historic banner the first ever carried by a lodge of Elks.

NEWS OF ALL LOCAL COURTS

A suit was filed in circuit court this morning by Wilson Finch, an expelled member of the Draughtons Practical Business college, against the college and Prof. E. E. Price, one of the tutors.

Finch wants to be reinstated and permitted to serve out the term he contracted and paid for. He alleges that he paid his tuition and was charged with breaking a rule—that prohibiting a student from taking his book keeping books home and studying at night.

Finch alleged that he did not know of this rule, had not been apprised of it when he entered the school, and that it is an unfair one and besides asking for a mandatory injunction for reinstatement, asks that the legality of the rule be tested. This involves a point of law which will draw a great deal of interest. The attorneys who brought the suit will maintain that the college is an institution for profit and gain and while it can make and enforce rules, they must be fair and just, and that this particular rule is not just because it prevents a student from studying more than a certain number of hours each day.

Justice Young's Court.

Hannah Davidson, colored, was yesterday afternoon fined \$5 and costs in Justice Jesse Young's court for a breach of the peace.

She made threats towards Mrs. Lucy Young, white. The court had a hard time hearing the case, as the defendant attempted to try the case herself. A new trial has been asked and the court will pass on it this afternoon.

Police Court.

John Jones got too full of "red eye" last night and tore Lottie Ladd's dress up and also tried to wreck the furniture in her room.

The woman did not approve of such actions and reported the matter to the police. Jones failed to explain why he acted as he did and Judge Sanders assessed a fine of \$20 and costs and hinted that he had better form a very good reason or defense in repetitions of the affair.

Charles A. Young, white, who made improper proposals to Mary Ferguson, was fined \$20 and costs. Other cases were: Frank Potts and Sullivan, white, drunkenness, \$1 and costs; Joe Booker, white, drunkenness, \$1 and costs.

County Court.

Annie L. Baker has qualified as notary public.

Tobacco in Liverpool.

Liverpool, July 13.—There was a fair inquiry for North American tobacco during the past month, but owing to various causes trade was difficult. The accumulation of old imports and the lack of inducement to send forward additional stock depress values below those ruling abroad. The offering for sale in America by Liverpool samples of tobacco lying in this port is an evidence of lower values here and a reversal of the normal state of things. It will be noticed that the imports during the month of June include 1,361 caskets strips, which, coming immediately after the passing of the Finance bill, throw a new light on the agitation for a reduction in the duty on strips.

THE PRESIDENT
SCORES QUITTERSDeclares Despite all Difficulties
Canal Will be a Success.In a Speech to Physicians He Praises
Sanitary Work That Has Been
Done in Cuba.

PRAISES GEN. WOOD'S WORK.

Oyster Bay, July 13.—President Roosevelt delivered an address yesterday afternoon before the Associated Physicians of Long Island. He discussed, in the course of his speech, the relations the physicians sustain with the people of the communities in which they reside, and the work to be done by medical experts in connection with the construction of the Panama canal, declaring that despite all difficulties on the isthmus and here in the United States the canal would be a success.

Sanitary Work in Cuba.

He referred to the achievements of sanitary engineers who cleaned the cities of Cuba for the first time in four hundred years and closed by paying a tribute to the services of General Leonard Wood.

"Now and then some alarmist report will come from Panama. Just a couple of weeks ago there seemed to be a succession of people coming up from Panama, each one of whom had some tale or other to tell. You will always find in any battle, even if it is a victorious battle, that in the rear you will meet a number of gentlemen who are glad that they are not at the front, who, if they have unfortunately gotten at the front, have come away, and who justify their absence at the front by telling tales of how everything has gone wrong there.

"Now, the people who flee from Panama will carry up here just such stories as people who flee from the forefront of a battle carry to the rear with them. The people to whom this country owes and will owe so much are those who stay down there and do not talk, but do their work and do it well.

"We have now and then troubles as regards hygiene, just as we will have trouble in engineering problems, just as occasionally we will have troubles in the administrative work. Whenever one of these troubles comes there will be a large number of excellent but timid men who will at once say what a calamity it is, and express deepest sorrow and concern, and be rather inclined to the belief that the whole thing is a failure. It will not be a failure. It will be a success; and it will be a success because we shall treat every little check not a reason for abandoning the work, but as a reason for changing and bettering our plans so as to make it impossible that particular check shall happen again."

Praise For "My Friend Wood."

The president then spoke of General Wood's successful sanitary work in Cuba and added:

"This country has never done better work, that is, work that is reflecting more than honor upon the country or for humanity at large than the work done in Cuba. And the man who above all others who is responsible for doing that work so well, was a member of your profession."

Expert to Investigate Clay.

Nashville, July 13.—Mr. George C. Scott, of Columbus, O., is expected to reach the city this evening. Mr. Scott is a clay expert and his visit will be to ascertain the value of the clay at Puryear, Tenn., as the Retail Merchant's Association is contemplating fathering the establishment in this city of a fire brick plant, as first stated in the Banner.

Mr. R. W. Beale of Puryear, who owns the clay mines at that place, is in the city and is endeavoring to interest local capitalists in the venture.

Near a Tragedy.

Paris, Tenn., July 13.—Troubles in a Kentucky family came near causing a tragedy in Paris yesterday, when an aged man named Campbell of Murray, Ky., met a young man named Forest from the same town and raised his shotgun to fire, but was prevented by officers. Campbell's daughter last week disappeared from her home and was traced to Paris, and something caused her father to suspect a conspiracy to abduct by a Paris man, the young man Forest and his cousin, Dr. J. Forest, and another Kentuckian, said to be one of the wealthiest men in the western part of the state, and Campbell had the physician arrested here, where he was visiting, and on com-

ing to push the case against him, met the other Forest at the station and attempted to shoot him.

The charge against Dr. Forest was dismissed by Campbell, and the trial of the younger man set for the 15th, he giving bond for his appearance.

There is no longer any danger of bloodshed, but the affair is causing much talk.

People and Pleasant Events

Sanders-McCabe Wedding.

Mr. W. McCabe, a popular young railroad man of this city, and Miss Katharine Sanders, daughter of Police Judge D. L. Sanders, were married at Benton, Ky., yesterday, the wedding being arranged as a surprise. All preparations were made several days before the wedding occurred and the couple after the ceremony went south to New Orleans on a bridal tour.

Mr. McCabe is a popular young train dispatcher employed as second trick man in the local I. C. dispatching office. He left Paducah more than a week ago and claimed he was going to Portland to attend the exposition. Instead he went to work quietly arranging for the marriage and worked a very pleasant surprise.

His bride is a popular and attractive young lady, the daughter of Police Judge Sanders, and was visiting in Smithland, her former home, until yesterday, when she met the groom and accompanied him to Benton.

After a several weeks' bridal tour, the couple will return to Paducah to reside.

Warner-Kennedy Wedding.

Capt. Charles B. Warner, a prominent steamboat owner of Helena, Ark., and Miss Vera May Kennedy, daughter of Capt. Fred Kennedy, of the steamer Lotus, now being repaired here, were married yesterday morning at 10 o'clock at the Grace Episcopal church on Broadway, Rector David Wright officiating.

Capt. Warner is a prominent navigator in the Mississippi river trade and is well known and popular. His bride is an attractive young lady, and came here several months ago with her parents, when their boat, the Lotus, was towed here for repairs.

Capt. Warner desired a quiet wedding and it was witnessed by a few friends only. Attorney E. W. Bagby being best man. The couple left last night for Helena, but will return in a few days when Capt. Warner brings his boat here for repairs.

An Enjoyable Dance Last Evening.

WERE HAVING A HIGH TIME ON CAR

Darkey Alleged to Have Sold Beer on Trolley Party.

The Police Are Investigating the Charge and Warrants Will Probably Follow.

A VERY DISGRACEFUL AFFAIR

The authorities are today investigating a case of alleged beer selling without a license and warrants will probably be issued before night.

Last night a party of negroes engaged two open summer cars and gave a trolley ride. The cars were started early in the night and run until a late hour. In the rear end of the last car a regular bar had been fitted out and it is said beer was sold to those in the party. Towards 11 o'clock the negroes became boisterous and at Sixth and Broadway a fight is said to have occurred in which a negro man knocked a woman in the head with brass knuckles and then fled. The woman also disappeared after a wound in her head had been dressed by Dr. Robert Sory, and she, too, refused to give her name, or that of the man who struck her.

Officers heard of the affair and Detective Moore boarded the car as it came in from Trimble street and found the beer selling going on. Several bottles of the liquid sold were secured and are being held at the police station pending the investigation. The liquid is said to be genuine beer and when the police learn the names of those having the stand in charge, will issue warrants.

PECULIAR ACCIDENT.

Railroad Workmen Try to Prepare Soup With Gasoline.

Cincinnati, O., July 13.—Nearly twenty men were injured and three were today placed in the city hospital here in a dangerous condition by reason of a peculiar accident near Baldwin, O., where the men were working on railroad tracks.

All were Italians, and in preparing a mess of spaghetti for the gang the cook called for more water. Two of the men dipped from a large tank two buckets of what they supposed was water. It proved to be gasoline. When the bucket was emptied into the big kettle an explosion followed. The second man tried to extinguish the flames with what he supposed was water, causing a second explosion, which injured nearly all the men who had escaped the first.

Nicholas Roberts, Tony Roberts and Tony DeGarr were terribly burned and the others less seriously.

In speaking of the National Tobacco Growers' convention which will meet in Owensboro next November, Up-to-Date Farming, the organ of the American Society of Equity, says:

"This convention will be composed of the leading tobacco men in each tobacco district in the United States. Each one of the 139 counties producing more than one million pounds should have a representative in attendance. This is to be the most important meeting of tobacco men ever held and promises much for those who plant tobacco.

"The little city of Owensboro will extend a royal welcome and the tobacco producing business is to be put on a sure, solid foundation.

"At this convention the following facts will be ascertained and made public. The amount in the hands of the dealers and manufacturers; the amount in the hands of the farmers; the prices paid by the consumers; the cost of manufacturing and handling tobacco; the profits secured by each class of dealers and handlers; the amount required for consumption during the succeeding year. With these facts before them it will not be difficult for the representatives of the tobacco growers to say what each class and grade is worth.

"After this is done the delegates will turn their attention to ways and means of grading, storing and holding tobacco and will provide for all emergencies. Steps will be taken to finish the work of organization at once.

"Now, friends, this can all be done. The men who think 'can't' and act out their thought are the only obstacles that will prevent success. If our members will work earnestly for a few more months we can remove the doubt and fear of most men and have them working for rather than against us.

"Delegates to this convention should be chosen and qualified not later than August 15. These delegates should be chosen in time to make complete reports of the conditions in their county, the amount of tobacco produced, its grade, quality, etc.

"Committees will be appointed, a program arranged, excursion rates secured and all preliminary work will be properly attended to and notice given in these columns.

"Farmers, will it be worth something to you to know just how much tobacco of the kind you can produce there is; how much is wanted for consumption and how much it is worth to the dealer? Will there not be great satisfaction in giving dealers to understand that their power to pull the profits from your pocket-book and wool over your eyes has been taken from them?

"Will you not feel more like the business men you ought to be when you realize you understand the situation and all other tobacco growers are standing with you in your honest demands, knowing that without the tobacco your organization controls the dealers are powerless to make a penny of profit, something not at all to their taste? We implore you to do all you can to interest every farmer in the coming convention and to see that your own county has a capable and efficient representative in the great congress of tobacco producers.

DO IT NOW.

Being it is you, and knowing you are a lawyer, doctor, teacher, preacher, merchant, mechanic, man or woman, I will sell you a new upright piano, stool and scarf, for \$150, on payments of \$5 per month, a discount for cash; second hand pianos in good condition thirty to fifty dollars, \$5 cash and \$3 per month. Closing out a stock of new Apollo players at \$150 to be placed with the Baldwin player, \$100 will buy a Maestro player new, only one left, music and song books to give way next week. This may only sound like a joke but 'tis true, keep it dark, it is only meant for you.

GOOD POSITION.

Dick Tolbert Goes to the Tennessee Bridge.

Officer Dick Tolbert, of the local I. C. shops, has received the appointment of draw tender at the new Tennessee river bridge and is studying the machinery and acquainting himself with the work.

He received the appointment yesterday, but will not go to work until thoroughly familiar with the workings of the draw and interlocking plant. He was formerly in the street car business, as motorman, and has had some experience with machinery.

His position as special officer is being filled by Mr. Hugh Miller who will in all probability receive the appointment permanently.

GOV. DOUGLAS UNDER ARREST

Massachusetts Executive Is Charged
With Exceeding Auto Speed
Limit.

Buzzard's Bay, Mass., July 13.—Governor Douglas was held up by officers yesterday and summoned to appear before the district court in Barnstable on July 12, charged with exceeding the speed limit with his automobile.

Governor Douglas was not driving his big touring car at the time, having but a few minutes before given up the wheel to his son-in-law, Mr. Richmond. The car was running about eight miles an hour when the officers jumped out into the middle of the road and stopped the party.

The officers had been using their stop watches and the moment the governor and party passed over the line the signal was given and they called a halt.

"Then you intend to complain against the governor in this matter?" said Mr. Richmond, jokingly.

"Oh, yes, of course we do," was the reply.

"Well," said Mr. Richmond, "We will make answer to the summons at the proper time."

GLAD NEWS.

Per Capita For Common Schools Is
Fixed at \$3.25.

Frankfort, Ky., July 13.—State Superintendent Fuqua this morning fixed the common school per capita for the fiscal year ending June, 1906, at \$3.25, a high record mark in the allowance to the teachers of the state. The highest ever before declared was last year, when it stood at \$2.95.

The fixing of the per capita at this high figure will be good news to the teachers of the state. It was fixed upon an estimate of resources, made yesterday by Auditor Hager, of \$2,422,000 for the school fund.

During the coming school year there will be about 731,000 children of school age, about 3,000 less than the previous year. Superintendent Fuqua has also given his attention to reducing the number of common schools in sparsely settled districts, and will thereby reduce the number of false pupils, for which allowance is made, and will secure better class of teachers.

"PRINCE" RETURNS.

A Dog Pet of Former Days Comes to Town.

"Prince," a full-blooded Chesapeake Bay water dog, known to every river man who has been running into Paducah for the past several years, made his appearance in Paducah again today, but he was hardly recognizable so old and feeble had he become.

"Prince" had become a nuisance in many ways and one very disgraceful habit he formed was that of attacking mail carriers and men in grey uniform. He bit a postman one morning and Judge Sanders gave him 12 hours to leave the city.

"Prince" was more than an ordinarily intelligent dog and left, at least that was the last seen of him until this morning when two small, ragged urchins had him leading him by a string tied about his neck.

"Prince's" eyes are colorless and he can hardly see. He could barely crawl about and when he espied a gutter with fresh running water, he made for it and laid down. The boys left him there.

He came from pedigree stock and was noted for his many feats which but few dogs could equal. He had dived off the hurricane decks of every packet boat, no matter how high and would dive to the bottom of the river after bricks and stones.

He was also a ballplayer and would catch not only baseballs, but bricks and stones and as a result his teeth are all broken. One accident, which happened to the canine several years ago and which left him marked for life, was when several urchins pitched him a cannon cracker lighted. The cannon cracker exploded as Prince opened his jaws to receive it, and he was "laid up" for many months.

City Jailor Evitts knew the dog well and tried to take him to his country home today, but he refused and was left lying in the gutter.

NEW ICE FACTORY FOR PADUCAH

Local Capitalists Have Formed a \$200,000 Company.

Names of the Men Behind the Deal Not Made Public But It Is Assured.

TO BEGIN OPERATION JAN. 1

Paducah is to have a new ice factory, one with a capacity sufficient to supply the entire city of Paducah, and while the factory will not be in operation this year, will be running by January 1. While The Sun is not permitted to give out any of the details of the corporation which will build the factory, the information came from a reliable source and the factory is assured.

The company has already been organized with a capital stock of \$200,000. The bulk of the stock has been subscribed and, when the proper time comes, the articles of incorporation will be filed in county court for record and active work in building will begin.

The incorporators are all local capitalists and have been working on the matter for sometime, completing the organization this week, and authorizing the drawing up of articles of incorporation.

A gentleman, in speaking of the factory this morning stated that the company intended to cut prices and do the bulk of the business here, and that the members of the company are men of business foresight who think such an industry would be a paying one.

INTENSE HEAT

Is Causing Great Suffering in Parts of the Country.

Washington, July 13.—Hot weather prevails over the greater portion of the United States, according to reports received at the weather bureau tonight. Apparently there is no immediate relief in sight except thunder showers in several scattered sections. Throughout the west reports indicate increasing hot weather. Humidity is high all along the Atlantic coast from New England to Florida and the prospect is that it will continue two or three days. In Washington today maximum temperature was 88, but some relief has been experienced from local thunderstorms. There were a number of heat prostrations here, but as far as reported none has resulted fatally.

COURT MARTIAL KRUGER.

Kruger Will Be Called to Account for His Actions in Black Sea.

St. Petersburg, July 13.—The Nasha Shisn says Rear Admiral Kruger will leave the service on account of alleged incapacity in connection with his treatment of the situation created by the mutiny of the battleship Kniaz Potemkin at Odessa.

The admiral will probably be court-martialed. At the admiralty he is known as one of the "court admirals." Admiral Avellan's "promotion" to the council of the empire is definite, as is Admiral Birellet's appointment as minister of marine.

Mayfield Market.

Mayfield, July 12.—There were 360 hogheads of leaf tobacco sold Tuesday at the various warehouses at an average of \$5.46 1-2 per hundred and 17 hogheads of lugs at an average of \$4.43 per hundred. Considering grade the price of lugs was about the same and the price of leaf a little lower than the sale of June, 29. On that day lugs brought \$4.42 and leaf \$5.63 1-2 per hundred. July 15, 1904, there were sold 417 hogheads of leaf at an average of \$4.53 per hundred and no lugs were offered.

Death at Mayfield.

Mayfield, July 13.—John W. Davis, a young man 26 years old, died of consumption Wednesday morning at 9 o'clock at the home of his mother, Mrs. Harriet Davis, on North Ninth street, in this city.

HEALTH OFFICER SPEAKS HIS MIND

President Pendley Does Not Like the Sanitary Conditions.

There Are Too Many Dry Wells Permitted to Be Used by Citizens of the City.

THE NUISANCE TO BE ABATED.

Dr. J. W. Pendley, president of the board of health, denies the statement that the city is at present in the healthiest and most sanitary condition in many years.

"I do not desire to contradict the statement of any one, but from my own observations, from an official standpoint, I will say that if the city is in the best sanitary condition it has ever been, then I can't imagine what kind of town it was several years ago," President Pendley declared. "There are many dry wells used for draining sanitary garbage into, and these wells about the city have simply poisoned the ground and when rain soaks the soil, the germs of every kind of disease rise to the surface and next thing we know an epidemic of some kind is on us."

"I have given notice to the health officers of several nuisances of this kind but matters have not as far as I can see, been remedied. I, as president of the board of health, will see that every nuisance not remedied after proper notification has been given, is prosecuted and it will be in the state court—in the grand jury room, too, that the matter will be brought up."

"If the board of health was given authority over sanitary officers, there would be a marked change in the cleaning methods employed, and there would be few nuisances in the city," Pres. Pendley declared, "but the legislative boards are see-sawing and the board cannot secure control of the inspectors. The control of all sanitary matters should rightfully come under the head of the board of health, but for some reason or other the boards do not seem to co-operate in aiding the health authorities to better the sanitary condition of the city."

Wants Whiskey Tax Reduced.

Washington, D. C., July 13.—I. R. Jennings, a prominent Kentucky business man, is in Washington advocating a reduction of the internal revenue on whiskey from \$1.10 on the gallon to the old rate of 90 cents. He says it will bring in more revenue than the higher rate. He also advocates a higher tax on beer.

Look at the Leaks

A business, to be successful, must be conservatively managed. Every item of expense must be a necessity and no wild cat speculations should be countenanced.

This is the policy of The Mutual Benefit Life Insurance Co. It pays small salaries, its investments are scrutinized closely. Its risks are carefully examined, and for this reason.

It is doing business at less expense than ever before.

Its cash values are larger and take effect sooner than any company's.

Its extensions are greater than any.

The Lord's Prayer.
Newport, Ky., July 13.—An impressive incident in connection with the obsequies of James Caldwell, Confederate veteran, was the recital this morning in audible tones of the "Lord's Prayer," by the entire assemblage of mourners. Caldwell was formerly one of the largest tobacco leaf growers in this section. Several weeks ago he scratched his hand on a rusty nail in a screen door. Blood poisoning developed causing his death.

Kentucky Horses.
Lexington, Ky., July 13.—Eight noted Kentucky bred stallions left here yesterday afternoon for Japan, and will be used in the royal stud of the Japanese government. They were purchased by B. Hiosawa and T. Hayashi, who were sent to this city and America to buy horses for breeding purposes in Japan. The list includes some fine thoroughbreds.

Dog Saves a Child's Life.
Paris, Ky., July 13.—A courageous and faithful Shepherd dog saved the life of an adopted son of Capt. F. E. Nelson, the well-known turfman. The child, accompanied by the dog, its play-fellow, was playing in a lot near the house where a vicious sow had been turned in. The animal became enraged and attacked the child, severely bruising and lacerating it.

The child's screams brought the dog charging to its rescue. Like a whirlwind he attacked the enraged sow from all sides at once and after a fierce fight routed it. Then he returned to the child's side and stood guard until help arrived. The child was brought to Paris, where it received medical attention. The Nelsons live near Austerlitz, five miles from Paris.

Crops Damaged.
Hickman, Ky., July 13.—The rains have been so constant and hard for the past three weeks that the crops are in a distressing condition. In some places the farmers have not cut the wheat, and in others there was only a thin growth. The average was about twelve bushels to the acre. The corn crops in the lowlands are fairly good, and in some instances fine, but the corn in the hills was
